NETCOM NW RCIO

CPOC / CPAC Meeting

18 MAY 04

NETCOM Mission
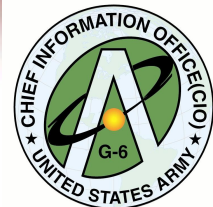

Direct Communications Link (DCL) (US-Russia) Government to Government Communications Link

NETCOM is the single authority to <u>operate, manage, and defend</u> the Army's enterprise level infostructure. NETCOM will deliver seamless enterprise level C4/IM common user services and signal warfighting forces in support of the Army and its Army Service Component Commanders and the Combatant Commanders. NETCOM engineers, operates, sustains, and defends the Army's portion of the Global Information Grid, enabling force projection and the delivery of decisive combat power.

TECHCON

NW RCIO

Customer Support Center	Network Service Center	DOIMs/IMOs
• Army Knowledge Management • Requirements Validation / Consolidation • Project / Program Management	• Visibility of Regional Networks • IT Fielding • Information Assurance Assistance • Network / Infostructure Support	

Technical Control (TECHCON) is the authority for one organization or command to issue and enforce policy and authoritative direction concerning the use of techniques, procedures, standards, configurations, designs, devices, and systems to another specified organization to accomplish specific mission(s). TECHCON does not include command authority or admin control for logistics or matters of administration, discipline, internal organization, or unit training.

REGIONAL CHIEF INFORMATION OFFICER

THE RCIO IS DUAL-HATTED AS THE G-6 FOR THE INSTALLATION MANAGEMENT AGENCY (IMA) REGIONAL DIRECTOR AND AS THE NETWORK ENTERPRISE TECHNOLOGY COMMAND (NETCOM) REGIONAL DIRECTOR.

RCIOs ARE ESTABLISHED UNDER GENERAL ORDER NO. 5 (13 AUGUST 2002) AND DESIGNATED TO ENFORCE C4IM POLICIES WITHIN THEIR ASSIGNED REGIONS.

THESE CONUS REGIONAL UNITS ENFORCE COMMAND, CONTROL, COMMUNICATIONS, COMPUTER, AND INFORMATION MANAGEMENT (C4IM) POLICIES, STANDARDS, ARCHITECTURES, PROGRAMS, PLANS, AND BUDGETS FOR ALL INFORMATION TECHNOLOGY ENTITIES WITHIN THEIR ASSIGNED REGIONS.

RCIO FUNCTIONS

• **Facilitate the requirements, planning, implementation, integration, and synchronization of the infostructure across the region**

• **Protect and Defend the Northwest Army Enterprise Infostructure**

• **Improve capabilities and reduce Total Cost of Ownership at installations through consolidation, regionalization of services, and leveraging best business practices**

• **Guide and enable DOIMs in Communications, Automation/Computers, Information Assurance, Records Management, and Visual Information**
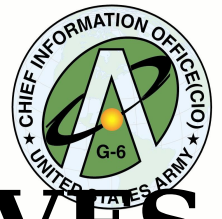

CIO/G-6 / NETCOM INITIATIVES

- NEAR TERM
  - Active Directory (AD) Implementation
    - Extended the CONUS AD Backbone to the NW Region
- LONG TERM
  - GIG/BE
  - IPV6
- ONGOING
  - Single DOIM
    - Action plan to bring shadow DOIMs into the Army Enterprise
  - Server Consolidation
    - Consolidate email, web, file, print, application servers, and domain controllers per SECARMY, CIO/G-6, and AKM Goal 3 guidance
  - Service Management
    - Support agreements between Garrison and
